

Financial Aid Disbursement Details - Summer 2024

Empl ID: 5664311      **Raymond,Owen Everett**

The information below shows the detail for all of the awards that have been disbursed to your Student Account as of right now. Each award shows the total amount disbursed as well as how the award was applied to your Student Account. A refund that appears under multiple awards with the same date was likely to be issued as one refund on that date. Be sure to allow up to 5 business days from the refund date for direct deposits to appear in your bank account, or allow for up to a week in mailing time if you did not elect to set up direct deposit.

The Seminoles are a Native American tribe that is uniquely different from other Native American groups in several ways. Here are some key distinctions:

- Historical Origin:
  - The Seminoles originated from various Native American groups, primarily Creek Indians from Georgia and Alabama, who migrated to Florida in the 18th century. This blending of different cultures and tribes is unique compared to other tribes with more singular origins.
- Resistance and Conflict:
  - The Seminoles are well-known for their resistance against the U.S. government, particularly during the Seminole Wars. They were one of the few tribes that never signed a formal peace treaty with the U.S. government, which is a notable distinction.
- Geographic Location:
  - Initially, the Seminoles were located in Florida. After the Indian Removal Act, many were relocated to what is now Oklahoma. However, a significant number of Seminoles remained in the swamps of Florida, particularly the Everglades, which was a unique form of resistance and survival.
- Cultural Adaptations:

↓

  - The Seminoles have a unique cultural blend that includes elements from the various tribes
